Teknoweb is based on the experience of two people who have been working for the last 30 years in the production of machineries for hygiene products, mainly disposable diaper, wipes and wet wipes.

☒ Piero Mandotti, the founder of the company, began his career in 1975 as a production manager and was the owner of TEKMA Ltd. / New Red Italian and co-founder of GDM Spa.

☒ Fabio Zampollo, co-founder, began his career in the world of hygiene products in 1987, with a leading manufacturer of machines for diapers; then developed his experience even in wet wipes and napkins.

The gathering of skills, concreteness and technological know-how of Piero Mandotti and Fabio Zampollo gave birth in 2004 to Teknoweb, with the concrete goal to become the reference company for the world of converting wipes.
