

from dry to wet. easily.

## RX8

---

RX8 line is specifically designed for the production of rolled cross-folded and individually packaged wet wipes. The process is fully automatic with no operator intervention in any step. Its fully automatic management lets the format change in a very short time. Specifically designed for cosmetic use.

### RX8

---

Product infeed	automatic on multi-lane
Machine working direction	at customer request
Primary voltage	400 V (+/- 5%), 50/60 Hz, 3 PH
Secondary voltage	231 VAC, 24 VDC
Installed power	9 Kw
Functioning	electronic pneumatic
Control	electronic
Total change-over efficiency	99,9 %
Waste for splice	3 wipes
Mechanical speed	200 wipes / min
Design speed	200 wipes / min
Production speed	up to 150 wipes / min
Lotion add on rate	min 100% - max 400%
Lotion viscosity	min 15 cps max 150 cps
Folded length	min 2.95 inch max 5.9 inch

---

## RX8

---

Folded width	min 2.2 inch max 5.1 inch
Unfolded length	min 5.9 inch max 11.8 inch
Unfolded width	min 4.7 inch max 11.8 inch
Basis weight	min 50 gsm - max 150 gsm
Core material	carton or PVC
Maximum roll width	11.8 inch
Maximum roll diameter	46.7 inch
Maximum roll weight	150 Kg
Core diameter	3 inch
Format change-over time	15 min
Splice	automatic
Infeed height	about 35.4 inch
Operating pressure	6 bar
Air consumption	220 nl / min
Total machine weight	2500 kg
Cutting speed	400 cuts / min
Drive technology	Siemens / Rockwell
